

## PRESIDENT WANTS LARGER NAVY

President Points Out Need of More Battleships.

CHINA CITED AS AN EXAMPLE

Special Message to Congress Holds Up Celestial Empire as a Specimen of the "Peace at Any Price" Doctrine—British Naval Policy Praised.

Washington, April 15.—The message of the president in support of his plan for an appropriation for four new battleships, concerning which there has been so much speculation, has been received by both houses of congress. There was considerable delay in the reading of the message in both the senate and the house, in the senate because Senator Foraker was engaged in making his Brownsville speech when the document was received, and in the house because that body was in committee of the whole on the naval appropriation bill.

That the message was designed to influence the house to increase the number of battleships provided for in the naval bill from two to four was generally understood and the dispatch of the message was intended to be so timed as to reach the house just before the taking up of that provision.

The debate on the naval appropriation bill was on when the message arrived, and it quickly became noised about that the anticipated document had reached the house. All sorts of questions were asked of the floor leaders as to when the reading of the message would begin, but a typographical error in the print of the message was seized upon by those opposed to the four battleship plan to delay the reading in the hope that the provision relating to the battleships would be first reported and thereby discount any effect the message might have in bringing members over to the president's view. It looked at one time as if it would be necessary to return the message to the president so that he might make the necessary correction, and when this was avoided further delay was caused by the necessity of a change which would transfer the committee of the whole into the house proper and then return to the committee's method of proceeding. Consequently the bill was not laid before the house until just before the close of the day's work.

Enthusiastically Received.

It was enthusiastically received by the advocates of a large navy.

The "antis" later gave vent to their feelings by applauding a petition from a number of citizens of New York city which was read at the instance of Mr. Tawney protesting against "the extravagance of spending over \$60,000,000 for four battleships."

These demonstrations afforded a fair opportunity to judge the temper of the house as a whole on the proposition. It was evident that the opponents of four battleships were in the majority, although the final vote will be close.

On an objection by Mr. Williams, Mr. Hobson was prevented from having read a memorial from laboring men favoring the building of more ships.

The message was read in the senate under a disadvantage. It was presented immediately after the conclusion of Senator Foraker's speech and while Vice President Fairbanks was engaged in an attempt to restore order. There was a loud hum of voices and the exodus of the throng from the galleries added to the noise to such an extent that it was quite difficult to hear the reading of the message. The secretary of the senate came to the rescue of the situation by skimming through the document in short order and a motion to adjourn ended the dilemma. Senators and members were supplied with copies of the message and many read it with avidity.

The message was a brief but vigorous contention for the rapid development of the navy. China was held up as an example of the "peace at any price" doctrine and Great Britain as having a naval policy to be emulated.

It was contended that the result of the last Hague conference made it plain that the nations would not for some time, if ever, agree on a plan of limitation of naval armament. Disclaiming any intention on the part of the United States ever to engage in a war of conquest the president made it plain that the country could ill-afford to relax into a position where insult would have to be borne in silence.

Half of a Suburb Destroyed.

Manistee, Mich., April 15.—Half the suburb of Oak Hill has been destroyed by fire. Forty-five dwellings and two stores were burned and a Polish woman whose name is not known was probably fatally burned. The loss will aggregate \$30,000.

TO HEAR FORAKER SPEAK

Crowds of Negroes Occupy Seats in Senate Galleries.

Washington, April 15.—Applause that smothered the pounding of the vice president's gavel attested the warmth of the reception given by the crowded galleries of the senate to the speech of Senator Foraker in defense of the colored soldiers discharged without honor by the president because of their supposed connection with the Brownsville affair. The day was made notable in the annals of senatorial oratory. Never in the history of the senate have the galleries so fully surrendered to representatives of the negro race, more than half of the crowds that filled every available seat and standing room being occupied by them. They came early and secured the points of vantage in all the galleries except that reserved for members of the families of senators. The only seats unoccupied were in the section reserved for the use of the president.

The senator began by saying there evidently was a misapprehension concerning his speech, and he read from a newspaper clipping to the effect that he was to deliver a three-days' speech in denunciation of the president and the secretary of war. He laughingly disavowed his intention to do either of the things charged against him. He proceeded to read his address, his voice ringing clear throughout the chamber except that toward the end he showed slight signs of exhaustion. The utmost silence prevailed during nearly three hours. Then his final references to the part the colored race had taken in the military service of the country called forth smothered applause and when as he finished there was resounding handclapping which defied the gavel of the vice president and continued for several minutes. As the ovation ended Vice President Fairbanks made the usual announcement about the rules of the senate forbidding demonstrations in the galleries and the tardy restoration of order called forth general laughter.

AGAINST NATIONAL BANKS

Secretary Cortelyou Sends Copies of Complaints to Senate.

Washington, April 15.—In response to a resolution adopted by the senate Feb. 18, last, at the instance of Senator Culberson, Secretary Cortelyou transmitted to the senate copies of all letters and telegrams of complaint relative to the refusal of national banks to furnish currency for the needs of the interior banks during the financial stringency of last fall. The matter transmitted shows that fifty-one complaints were received from forty-three banks. The complaints in most instances were as to the requirements that the smaller banks should make payments in cash to the larger banks and the sub-treasuries rather than in exchange, which necessitated the transportation of large volumes of currency at the risk of loss and delay.

It appears that of the fifty-one complaints only two elicited responses from the secretary, who explained that the failure to make reply did not indicate that efforts were not made to give relief to the complaining institutions. The secretary says that in order to save time the telephone frequently was used and by that means the New York, Chicago and Philadelphia banks were asked to furnish help where it was required. The responses by these banks, the secretary says, were generally prompt and liberal. As for the treasury itself, Mr. Cortelyou says that it refrained from pressing the banks for the immediate turning into the treasury of receipts on account of the revenues.

FOLLOWS WARNING LETTER

Explosion in a Colorado Mine May Cost Three Lives.

Durango, Colo., April 15.—Following a warning received through an anonymous letter that unless the Champion coal mine of the Royal Coal and Coke company was made safe by repairs, the mine would be blown up, an explosion occurred in the mine, which completely wrecked the workings and perhaps fatally injured three persons. Two Italians, names unknown, were blown out of the mine and when picked up were unconscious from many wounds. It is thought they will die. C. A. Williams, who was in the mine when the explosion occurred, has not been found and is believed to be dead. The warning letter was received last Thursday by Superintendent George Logan, who caused an inspection to be made the following day. The mine was pronounced to be entirely safe. There is no clue to the sender of the letter or the cause of the explosion. Investigation is being made by the county authorities.

## THURSTON AND LAKE

Testify Before House Investigating Committee.

NAVY DEPARTMENT REPORTS

President of the Lake Torpedo Boat Company Says One of Them Was Sent to Him While He Was in Berlin—Made Public by Mr. Skerrett.

Washington, April 15.—Former United States Senator John M. Thurston of Nebraska, attorney for the Lake Torpedo Boat company, before the special house committee investigating charges made by Representative George Lilley of Connecticut against the Electric Boat company, disclaimed any knowledge, in advance of the fact, that Mr. Lilley proposed to introduce his resolution of investigation. He said he had received the impression that a feeling prevailed that the Lake company in some manner instigated this investigation. If he had known, he continued, that the resolution was to be introduced, he would have discouraged it, because a resolution of this kind might endanger the appropriation for submarines. While he considered that the form of the bill as reported by the committee deprived the Lake company of any participation in the appropriation, he still believed that congress might give the Lake company a chance to compete with the other boats.

He saw no impropriety in a man representing an interest in a measure pending before congress, going to any member of congress and in a fair and decent manner setting forth his views. He said he had tried to secure a hearing before the naval committee of the house for Simon Lake and himself to present arguments in favor of their boat, but had been unsuccessful.

Postal Card Incident.

Regarding the postal cards sent out by the Lake company to which reference was made last week, Mr. Thurston said he had advised Mr. Lake that there was nothing wrong in sending out these cards if they presented fairly the facts.

Simon Lake, president of the Lake Torpedo Boat company, testified that his company had been in rivalry with the Electric Boat company for about fifteen years. He had no knowledge of any improper conduct on the part of the latter company to secure legislation or to influence members of congress.

Touching the postal card incident, Mr. Lake said he had instructed Robert D. Skerrett over the telephone to get out the cards and mail them to members of congress. When he learned of the introduction of Mr. Lilley's resolution he directed that the mailing of the cards be temporarily suspended.

Regarding reports in the navy departments, supposed to have been secret, which Mr. Skerrett testified last week had been sent him, Mr. Lake stated that the report of Captain Taylor had been forwarded to him (Lake) while in Berlin from a Bridgeport office and had been taken by his office boy to Mr. Skerrett, who also was in Berlin. When Mr. Lake learned that Mr. Skerrett had published this information, he said, they had a disagreement over it, and this disagreement led to Mr. Skerrett's resignation from the company. Mr. Lake thought that Captain Taylor, if he wanted to make his report public, should do so over his own signature. This report was on a scientific matter connected with submarine boats and Mr. Lake said he did not consider that any harm had been done by the publication.

JULIA MARLOWE VERY ILL.

All of Her Engagements for the Next Fortnight Cancelled.

New York, April 15.—Miss Julia Marlowe is lying seriously ill at the Plaza hotel in this city as the result of a nervous breakdown following a season of ten weeks of one-night stands. Her doctors have ordered the Shuberts, her managers, to cancel all of her engagements for the next fortnight. It is hoped that with care she may be able to resume her work so as to appear at the Lyric theater in New York in May.

Miss Marlowe's physician, Dr. M. Allen Starr, and her attorney, Herbert L. Satterlee, have found it unwise to consult her for the time being concerning the introduction of her name in a Boston divorce suit. At present no one is permitted to see her.

Iowa Farmer Ends His Life.

Waterloo, Ia., April 15.—Louis Westley, a farmer near Oelwein, was found hanging to a tree near Wapsie river in a secluded spot. The body was found by two school children. It was hanging fifteen feet above the ground from a wire clothes line. Brooding over financial reverses is supposed to have been the cause.

## The W. B. Reduso Corsets.

A large woman who attempts to wear the new tight hip skirts will appear ridiculous if she does not reduce her hips and that part of her figure below the spine. She can accomplish this in two ways. She can suffer torment and wear a thick, heavy, torturing, harness-like mould that by sheer strength and the pulling of unsightly straps squeezes her like a vise, or she can wear a W. B. Reduso, which is just as simple as any other woman's corset.

The Reduso is scientific instead of brutal. It accomplishes its results, not by pressure but by means of peculiarly shaped gores and curves that give such construction that its wearer must stand with chest thrown out and abdomen drawn in.

The wearer of W. B. Reduso suffers no more discomfort from her corset than she would from a girdle. Her hips and abdomen are reduced from one to five inches, the chest is raised, so that the bust appears smaller.

H. F. MICHAEL CO.

INSTRUCTED FOR GRAY.

Delaware Delegation to Democratic National Convention.

Dover, Del., April 15.—Despite the written declaration of Judge George Gray that he could not under any circumstances consent to have the delegates instructed for him, the Delaware state convention officially placed his name before the Democracy of the country for that party's nomination for president of the United States. Judge Gray's declaration, contained in a letter to Thomas F. Bayard, chairman of the state committee, which was read to the convention, came as a surprise to the delegates, but they did not hesitate an instant to place him in the field. The mention of his name in the convention was enthusiastically received. There was no voice raised against the resolution to instruct the delegation of six to "support, advocate and vote" for Judge Gray's nomination.

The platform adopted declares for unfaltering devotion to state rights, criticizes the national administration and declares for a revision of the tariff.

T. Bayard Hetsel presided over the convention and little time was lost in making the temporary organization permanent. Before the resolutions committee was called upon for its report State Chairman Bayard presented Judge Gray's letter.

Former Congressman L. Irving Handy then began the reading of the platform. When he mentioned Judge Gray's name for president there was prolonged cheering and handclapping. The motion to adopt the resolution was carried with a hurrah.

The unit rule resolution was then unanimously adopted, and following its adoption the convention ratified the nomination of the national delegates selected by the caucuses and adjourned.

BRYAN MEN DEFEATED.

But They Will Carry Fight to Floor of New York Convention.

New York, April 15.—The first day of the Democratic state convention closed with a defeat of those delegates committed to the candidacy of William J. Bryan. The committee on

resolutions adopted a set of resolutions to be presented to the convention when it reconvenes, providing for an uninstructed delegation to the national Democratic convention at Denver.

When the state convention organized, the Bryan men offered a resolution instructing the delegates to be chosen for Mr. Bryan. It was referred to the committee on resolutions, which met and in turn referred the Bryan resolutions to a subcommittee of seven. The subcommittee heard an appeal by Augustus Thomas, president of the Bryan Progressive Democratic league, which fathered the resolution, and then by a vote of 6 to 1 decided to report to the full committee the recommendations against an instructed delegation. The subcommittee's report was received and adopted by the committee on resolutions by a vote of 28 to 4. A minority report of the subcommittee calling for an instructed delegation was defeated by a similar vote. Nineteen members of the committee on resolutions were absent when the vote was taken.

The Bryan men declared later that they would carry the fight to the floor of the convention.

IMPORTANT CONFERENCE.

Held at White House Between Roosevelt and Watson.

Washington, April 15.—An important conference was held at the White House between President Roosevelt and Representative Watson of Indiana, Republican "whip" relative to the legislative programme in the house and the movement looking to an early adjournment of congress. The conference lasted for more than two hours and afterward Mr. Watson called on Speaker Cannon to report what had taken place at the White House.

In an interview, Mr. Watson said that the president told him there was no division of sentiment between the White House and the Capitol over legislation that would not yield to compromise. The president, said Mr. Watson, was in sympathy with the early adjournment proposition, but he wanted congress to pass the necessary legislation before doing so.

BIG DAM GOES OUT.

Causes Heavy Loss to Property in Montana.

Helena, Mont., April 15.—Without warning the great dam at Hauser lake on the Missouri river fifteen miles north of this city, partially gave way, causing damage estimated at \$250,000. No lives were lost and as far as can be learned no serious damage has been caused by the volume of water, estimated at about twenty-five feet, which was precipitated into the channel below the structure. The narrowness of the river and its interwinding course has impeded the progress of the water and no great loss of property is anticipated in the towns and villages north of this city.

Hauser lake dam, 70 feet high and 490 feet long, was completed last year at a cost of more than \$2,000,000, and developed a horsepower of 25,000, which was utilized in operating the various power plants in Helena and the Butte mines and the Amalgamated Copper company's smelter plants at Anaconda. The break in the dam site will not interfere with the operation of the mines and other plants, as power is being furnished from the Canyon Ferry dam and the company's sub-station in Butte.

The break was caused by the buckling of steel plates near the lower expansion joint.

At the time the structure gave way about thirty men were at work in the powerhouse, which is situated about 100 yards below the dam site on the north side of the river. It is believed that all those men escaped and that no lives were lost at the dam. About 250 feet of the dam was destroyed. Five dwellings occupied by employees, the office building and stable were washed down the river as the great flood of water poured through the dismembered structure.

Former Banker a Suicide.

Duluth, April 15.—Despondent over business troubles, Charles F. Leland, formerly president of the Commercial bank, shot and killed himself in his rooms at 1511 East Superior street. He fired two bullets from a revolver into his head and death was almost instantaneous.

## PRESIDENT WANTS LARGER NAVY

President Points Out Need of More Battleships.

CHINA CITED AS AN EXAMPLE

Special Message to Congress Holds Up Celestial Empire as a Specimen of the "Peace at Any Price" Doctrine—British Naval Policy Praised.

Washington, April 15.—The message of the president in support of his plan for an appropriation for four new battleships, concerning which there has been so much speculation, has been received by both houses of congress. There was considerable delay in the reading of the message in both the senate and the house, in the senate because Senator Foraker was engaged in making his Brownsville speech when the document was received, and in the house because that body was in committee of the whole on the naval appropriation bill.

That the message was designed to influence the house to increase the number of battleships provided for in the naval bill from two to four was generally understood and the dispatch of the message was intended to be so timed as to reach the house just before the taking up of that provision.

The debate on the naval appropriation bill was on when the message arrived, and it quickly became noised about that the anticipated document had reached the house. All sorts of questions were asked of the floor leaders as to when the reading of the message would begin, but a typographical error in the print of the message was seized upon by those opposed to the four battleship plan to delay the reading in the hope that the provision relating to the battleships would be first reported and thereby discount any effect the message might have in bringing members over to the president's view. It looked at one time as if it would be necessary to return the message to the president so that he might make the necessary correction, and when this was avoided further delay was caused by the necessity of a change which would transfer the committee of the whole into the house proper and then return to the committee's method of proceeding. IMPORTANT CONFERENCE.

Held at White House Between Roosevelt and Watson.

Washington, April 15.—An important conference was held at the White House between President Roosevelt and Representative Watson of Indiana, Republican "whip," relative to the legislative programme in the house and the movement looking to an early adjournment of congress. The conference lasted for more than two hours and afterward Mr. Watson called on Speaker Cannon to report what had taken place at the White House.

In an interview, Mr. Watson said that the president told him there was no division of sentiment between the White House and the Capitol over legislation that would not yield to compromise. The president, said Mr. Watson, was in sympathy with the early adjournment proposition, but he wanted congress to pass the necessary legislation before doing so.

BIG DAM GOES OUT.

Causes Heavy Loss to Property in Montana.

Helena, Mont., April 15.—Without warning the great dam at Hauser lake on the Missouri river fifteen miles north of this city, partially gave way, causing damage estimated at \$250,000. No lives were lost and as far as can be learned no serious damage has been caused by the volume of water, estimated at about twenty-five feet, which was precipitated into the channel below the structure. The narrowness of the river and its interwinding course has impeded the progress of the water and no great loss of property is anticipated in the towns and villages north of this city.

Hauser lake dam, 70 feet high and 490 feet long, was completed last year at a cost of more than \$2,000,000, and developed a horsepower of 25,000, which was utilized in operating the various power plants in Helena and the Butte mines and the Amalgamated Copper company's smelter plants at Anaconda. The break in the dam site will not interfere with the operation of the mines and other plants, as power is being furnished from the Canyon Ferry dam and the company's sub-station in Butte.

The break was caused by the buckling of steel plates near the lower expansion joint.

At the time the structure gave way about thirty men were at work in the powerhouse, which is situated about 100 yards below the dam site on the north side of the river. It is believed that all those men escaped and that no lives were lost at the dam. About 250 feet of the dam was destroyed. Five dwellings occupied by employees, the office building and stable were washed down the river as the great flood of water poured through the dismembered structure.

Former Banker a Suicide.

Duluth, April 15.—Despondent over business troubles, Charles F. Leland, formerly president of the Commercial bank, shot and killed himself in his rooms at 1511 East Superior street. He fired two bullets from a revolver into his head and death was almost instantaneous.

618 Laurel Street

P. B. Nettleton, who has been in Seattle for nearly two years, returned today and will make Brainerd his headquarters for some time. He came via Minneapolis and met E. C. Griffith in that city. Mr. Griffith, he states, is now working on the Minneapolis Journal. Mr. Nettleton's many friends are glad to see him back again.

We are now prepared to repair your bicycle promptly. Slipp-Gruenhagen Co. 265tf

The question of woman suffrage, which has vexed the world since self government was first established among men will be solved Friday evening. The educational section of the Y. M. C. A. will debate the question that evening. C. C. Sorrenson and Quinn Parker will uphold the affirmative side of the question while G. S. Swanson and Fred DuBois will maintain the negative.

Screen doors and windows, all sizes and very cheap at Slipp-Gruenhagen Co. 265tf

Geo. West fell just as he stepped out of the south door of his restaurant this forenoon spraining his instep badly. He is limping around on crutches but is not able to do much. Nick Lauer is tending bar for him while he is unable to attend to duty. What made George the sorest is that the trout season opens today and he and a party of friends were going to Pillager tonight for a day's fishing and now the stuff is off.

#### "WAKING" OF A NOTED HOTEL

Why the Old Fifth Avenue, in New York, Refused to Be Closed.

The "waking" of the Fifth Avenue hotel, in New York, lasted all day the other day. The hotel was officially closed on a Saturday at midnight by Louis Selbold, president of the "amen corner." It was not until 1 o'clock the next morning that even the "ameners" would leave the building. Then they marched out singing "Auld Lang Syne."

Even after the organization which officiated at the obsequies had deserted the building and it should have been locked up until the wreckers came to tear it apart no one could be found who would seal the doors. The key was probably lost many years ago. The only time that the doors of the hotel were locked after it was opened was during the draft riots in 1861.

"The hotel refuses to be closed," said Managers Darling and Villas, and the most that they would do toward that end was to bring out a couple of the old fashioned velvet covered settees of the office and with them bar the doors. But these slight barriers furnished no obstacles to the crowds of curious who gathered about the historic old hotel and wished to take another look at the interior.

The lobby was thronged all day long with sightseers. Many persons who had at times been guests of the hotel came to take a last look about the structure.

The scenes attending the closing of the hotel will live long in the memory of those present. When the men who have been accustomed to make almost daily visits there for many years finally realized that the end had come the question uppermost in their minds was where to go.

The question was asked over and over again, and there seemed to be no answer. When early in the morning the large throng filed out, still singing "Auld Lang Syne," many felt as though they had been turned away from their real homes.

As the crowd sang some of the lights were dimmed to mark that the hotel's career was ending.

#### Bryan Men Issue Call.

St. Paul, April 15.—Twenty-two local Bryanites have issued a call for caucuses and a county convention which will doubtless result in contesting delegations at the state convention. The caucuses are called for 7:30 p. m. on May 6, while the call of the Democratic county committee puts the time of the caucuses at from 5 to 6 o'clock on May 6. The Bryanites contend that the laboring men, who they say would support Bryan, could not attend the caucuses at 5 o'clock.

#### TELEGRAPHIC BREVITIES.

A disease supposed to be bubonic plague is raging at La Guayra, Venezuela.

Governor General and Lady Grey of Canada, accompanied by Earl Grey's aide-de-camp, Captain Newcomb, have arrived in Washington and will be the guests of British Ambassador and Mrs. Bryce for several days.

School superintendents from the states of Missouri, Kansas, Iowa and Nebraska are meeting in Kansas City to discuss the forming of a permanent organization for the superintendents of that part of the Southwest.

#### The Youngest Was the Eldest.

A curious legal point was decided in the reign of Elizabeth—at least so the story goes. A country gentleman bequeathed his estate to his eldest son and 110 to the younger. He had only two sons, who were twins. The first-born claimed the estate, but it seemed that he had been around the world with Drake and so had lost a day on the voyage; hence the lawyers, sly rogues, assured him that his brother's claim was the best, and the adventurer acquiescing in the decision, departed on his travels with the 110 in his pocket.

#### INNOVATION FOR GARDENS.

The Fashionable Should Have Lakes in Them, Says London Gardener.

One of London's landscape gardeners assures us that fashions in gardens change almost as mysteriously as fashions in women's hats. The plain matter of fact garden, with its trim lawn bordered by neat rows of flower beds, is passing out of favor. "The fashionable garden this summer," he says, "will contain a lake, a fountain and possibly a maze made out of laurels. Irregularity is the result aimed at, says the New York Press. "For instance, you may have a small lake surrounded by a hedge and spanned by a bridge. By the side of the lake a small summer house can be built. At the end of the garden, reached by tortuous paths, there may be a beehive, a rain gauge or something which will interest the householder."

"Statues hidden in unexpected corners of the garden can be introduced, while a softly splashing fountain adds a charm to the whole. Many persons have already had little artificial lakes built in their gardens this year." A circular lake seven feet in diameter will not cost more than \$10, while connecting a water supply for the lake, which must be kept fresh if fish are to live in it, should not cost more than a few dollars more.

"Poor fellow!" chattered the monkey, looking from its dizzy height to the weary wayfarer far below. "He shall not sleep on the bare ground. I will give him a shake down!"

And then the cocoanuts rattled merrily about the head of the slumbering pilgrim.

## CALE'S DEPARTMENT STORE

### Ladies' and Misses' Spring Jackets

☞ We are pleased to say we are showing an excellent line of ladies' and Misses' Spring Jackets.

☞ If you are in need of such a garment we believe we can please you as we have them in a variety of colors and material also sizes ranging from 28 to 40.

☞ We invite you to come in and see this line whether you purchase or not.

A. will debate the question that even-  
ing. C. C. Sorrenson and Quinn Parker  
will uphold the affirmative side of the  
question while G. S. Swanson and Fred  
DuBois will maintain the negative.

Screen doors and windows, all sizes  
and very cheap at Slipp-Gruenhagen  
Co. 265tf

Geo. West fell just as he stepped out  
of the south door of his restaurant this  
forenoon spraining his instep badly.  
He is limping around on crutches but  
is not able to do much. Nick Lauer is  
tending bar for him while he is unable  
to attend to duty. What made George  
the sorest is that the trout season opens  
today and he and a party of friends  
were going to Pillager tonight for a  
day's fishing and now the stuff is off.

#### "WAKING" OF A NOTED HOTEL

Why the Old Fifth Avenue, in New  
York, Refused to Be Closed.

The "waking" of the Fifth Avenue  
hotel, in New York, lasted all day the  
other day. The hotel was officially  
closed on a Saturday at midnight by  
Louis Seibold, president of the "amen  
corner." It was not until 1 o'clock the  
next morning that even the "ameners"  
would leave the building. Then they  
marched out singing "Auld Lang  
Syne."

Even after the organization which  
officiated at the obsequies had deserted  
the building and it should have been  
locked up until the wreckers came to  
tear it apart no one could be found  
who would seal the doors. The key  
was probably lost many years ago. The  
only time that the doors of the hotel  
were locked after it was opened was  
during the draft riots in 1861.

"The hotel refuses to be closed," said  
Managers Darling and Vilas, and the  
most that they would do toward that  
end was to bring out a couple of the  
old fashioned velvet covered settees of  
the office and with them bar the doors.  
But these slight barriers furnished no  
obstacles to the crowds of curious  
who gathered about the historic old  
hotel and wished to take another look  
at the interior.

The lobby was thronged all day long  
with sightseers. Many persons who  
had at times been guests of the hotel  
came to take a last look about the  
structure.

The scenes attending the closing of  
the hotel will live long in the memory  
of those present. When the men who  
have been accustomed to make almost  
daily visits there for many years final-  
ly realized that the end had come the  
question uppermost in their minds was  
where to go.

The question was asked over and  
over again, and there seemed to be no  
answer. When early in the morning  
the large throng filed out, still singing  
"Auld Lang Syne," many felt as though  
they had been turned away from their  
real homes.

As the crowd sang some of the lights  
were dimmed to mark that the hotel's  
career was ending.

#### Bryan Men Issue Call.

St. Paul, April 15.—Twenty-two lo-  
cal Bryanites have issued a call for  
caucuses and a county convention  
which will doubtless result in con-  
testing delegations at the state or  
vention. The caucuses are called for  
7:30 p. m. on May 6, while the call of  
the Democratic county committee  
puts the time of the caucuses at from  
5 to 6 o'clock on May 6. The Bryan-  
ites contend that the laboring men,  
who they say would support Bryan,  
could not attend the caucuses at 5  
o'clock.

#### TELEGRAPHIC BREVITIES.

A disease supposed to be bubonic  
plague is raging at La Guayra, Vene-  
zuela.

Governor General and Lady Grey of  
Canada, accompanied by Earl Grey's  
aide-de-camp, Captain Newcomb, have  
arrived in Washington and will be the  
guests of British Ambassador and  
Mrs. Bryce for several days.

School superintendents from the  
states of Missouri, Kansas, Iowa and  
Nebraska are meeting in Kansas City  
to discuss the forming of a permanent  
organization for the superintendents  
of that part of the Southwest.

#### The Youngest Was the Eldest.

A curious legal point was decided in  
the reign of Elizabeth—at least so the  
story goes. A country gentleman be-  
queathed his estate to his eldest son  
and £10 to the younger. He had only  
two sons, who were twins. The first-  
born claimed the estate, but it seemed  
that he had been around the world  
with Drake and so had lost a day on  
the voyage; hence the lawyers, sly  
rogues, assured him that his brother's  
claim was the best, and, the adventur-  
er acquiescing in the decision, de-  
parted on his travels with the £10 in  
his pocket.

#### INNOVATION FOR GARDENS.

The Fashionable Should Have Lakes in  
Them, Says London Gardener.

One of London's landscape gardeners  
assures us that fashions in gardens  
change almost as mysteriously as fash-  
ions in women's hats. The plain mat-  
ter of fact garden, with its trim lawn  
bordered by neat rows of flower beds,  
is passing out of favor. "The fashion-  
able garden this summer," he says,  
"will contain a lake, a fountain and  
possibly a splash fountain adds a  
charm to the whole. Many persons  
have already had little artificial lakes  
built in their gardens this year." A  
circular lake seven feet in diameter  
will not cost more than \$10, while con-  
necting a water supply for the lake,  
which must be kept fresh if fish are to  
live in it, should not cost more than a  
few dollars more.

"Poor fellow!" chattered the monkey,  
looking from its dizzy height to the  
weary wayfarer far below. "He shall  
not sleep on the bare ground. I will  
give him a shake down!"  
And then the coconuts rattled merrily  
about the head of the slumbering  
pilgrim.

## CALE'S DEPARTMENT STORE

### Ladies' and Misses' Spring Jackets

Q We are pleased to say we are  
showing an excellent line of ladies'  
and Misses' Spring Jackets.

Q If you are in need of such a gar-  
ment we believe we can please  
you as we have them in a variety of  
colors and material also sizes ranging  
from 28 to 40.

Q We invite you to come in and  
see this line whether you pur-  
chase or not.

MANY BEAUTIFUL FLOWERS

Laurel Street Florist's Store a Place  
of Beauty with Flowers for  
Easter Decorations

A reporter of THE DISPATCH dropped into the store of J. C. McClellan, the Laurel street florist this morning. When he entered the perfume was almost overpowering. In beautiful array were to be seen Easter lilies by the dozen, baby ramblers roses with dozens of handsome blooms on each plant, beautiful white Magnolia Charta roses, Paul Neyron roses so dark they were almost black, were there. There were also beautiful Hydrangeas, and handsome Cinerarias, the new purple flowers which are all the rage. Mr. McClellan stated that his cut flowers had not yet begun to arrive for Easter but some would be in today and they would be beauties.

"FAIR" CONTEST  
FOR CHILDREN

State Fair Offers Eighteen Prizes  
for Best Story of Attack on  
Ft. Ridgley

WILL REPRODUCE THE EVENT

Historic Building and Indian At-  
tack will be Reproduced at  
the Fair

How many school children are there who are familiar with the history of their own state?

The management of the State Fair are interested in learning to what extent the children of Minnesota know of the struggles of the early settlers, and they propose a novel method of ascertaining.

The big spectacular feature of the 1908 fair will be known as "Fort Ridgley in 62." A reproduction of the old fort as it stood, at that time, will be constructed in the in-field of the half-mile track, and a portrayal of the attack by the Indians is to be reproduced.

One thousand people, including three hundred genuine Sioux Indians, will participate in the exhibition. It is intended to make the enactment as consistent as possible, and, as yet, the story upon which the action will be based is undecided. In order to secure a variety of versions of the various attacks by the Indians on Fort Ridgely, the state fair management intend offering eighteen prizes for the best story or description of the affair, written by a pupil in the public schools.

The story may be taken from any of the histories that are published on the Sioux War in Minnesota, or, they may be written from descriptions of the battles, as described by participants, many of whom are alive, and living in various parts of the state. The story must be written, however, in the writer's own style, and not quoted.

Any boy or girl living in Minnesota, and a pupil of the public schools, may contest for the prizes. A committee of prominent business men of St. Paul and Minneapolis will act as judges, and the spectacle will be based on the events as described in the winning story, which will be published in the official program of the fair, together with a portrait of the writer.

There will be eighteen prizes given as follows:

To the one whose story is selected as the winner, there will be given a cash prize of Ten Dollars (\$10.00), a season ticket to the fair, good for both Main Gate and Grandstand, and in addition a mammoth portrait of the winner will be shown in fireworks, on the first night of the fair.

To the one whose story is considered second best, there will be given a cash prize of Five Dollars (\$5.00), and a season ticket to the fair.

To the third Three Dollars (\$3.00), and a season ticket to the fair, and to the next five, a season ticket to the fair, and the next ten will each receive a single admission to the fair.

The contest will close at midnight June 1st. All stories must be written in ink, one side of the paper only, and must be confined to one thousand words. The age, name and school attended should be plainly written at the top of the page. Stories to be addressed to C. N. Cosgrove, Secretary Minnesota State Fair, Hamline, Minn.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all druggists, 75c.  
Take Hall's Family Pills for constipation.

APPROVE PLAN

Many Expressions of Approbation are  
Heard of Plan to Curb Second  
Ward Streets

THE DISPATCH reporter this forenoon heard many words of commendation for the plan of the civic league to have the property in the second ward assessed this year for curbing. H. W. Linnemann spoke emphatically in favor of it. He believed it would be much easier for the property owners to pay for the curbing at one time and for the paving later than to pay for it all at once. He said that there could be no definite improvement of the streets as long as people could keep driving nearer and nearer to the sidewalks.

M. T. Dunn, while he would not perhaps compel the curbing at this time, believed that the lines and grades should be established and anyone who wished should be permitted to put in curb, whether for a single lot or for a block or more. He believed if it was once started the rest of the property holders would soon fall in line.

There is one thing in which the Second ward is behind every other in the city, said a resident of that ward this morning. In no other part of the city are so many ashes thrown in the street as in that ward. It should be stopped and every householder caught violating the ordinance should be punished.

ALDERMAN  
IS ELECTED

SPECIAL TO THE DISPATCH:

Elk River, Minn., April 14.—Senators Alderman and Gunderson were elected delegates to the republican national convention by the Sixth district republican convention here today. Mr. Means, of Wright county and Mr. Greno, of Staples, were elected as alternates. A. H. Terretin, of Benton county was nominated for presidential elector.

JUNIOR MEMBERSHIP CONTEST

Junior Members of Y. M. C. A. are  
Contesting to See Who Can Se-  
cure the Most New Members

Yesterday about 4:15 15 of the juniors of the Y. M. C. A. met with the secretary to lay out a plan for a campaign for junior members. There are now 54 junior members in the Y. M. C. A. and they aim to raise it to 100. The junior gymnasium class has been divided into two teams as follows:

BLUES	WHITES
V. Bennett, Capt.	Geo. Ribbel, Capt.
F. Johnson	R. Elder
M. Elder	H. Fullerton
L. Langslow	R. Stickney
Geo. McLeod	W. Brown
C. Geminder	G. Day
E. White	W. Slipp
B. Burrell	E. Blake
R. Ahrens	A. McGinn.

It is understood at the outset that the defeated side is to entertain the winning side at the close of the contest. Also that there will be a junior Y. M. C. A. camp some time this summer: plans for same are being laid now, and a spot will soon be selected. It is barely possible that there may be formed a junior base ball league as there are now four teams looming into sight.

He Got What He Wanted

"Nine years ago it looked as if my time had come," says Mr. C. Farthing of Mill Creek, Ind. Ter., "I was so run down that life hung on a very slender thread. It was then my druggist recommended Electric Bitters. I bought a bottle and I got what I needed—strength. I had one foot in the grave, but Electric Bitters put it back on the turf again, and I've been well ever since." Sold under guarantee a. H. P. Dunn's drug store. 50c. ttdw

MUSIC AND DRAMA

Coming Attractions

April 22—Slayton's Jubilee Singers.  
April 24—Clay Clement.  
Soon—The Power that Governs.  
Soon—"The Burgomaster."

Jubilee Singers Coming

The next attraction at the opera house will be the celebrated Slayton Tennesseans, jubilee singers. This is the well known organization that has been on the road for over twenty years and the managers announce that they have secured better talent for the present company than ever before. Wm. Hi Mason is the musical director this year and will be remembered as the director of the original Fisk Jubilees at the time Miss Maggie Cole was the sensation of the musical world on account of the wonderful soprano voice she possessed. Miss Maude Browne, the leading soprano of the company, is declared by Mr. Mason, and in fact by all who hear her, to be the finest colored singer of the present day. Other soloists of the company are Mr. Chas. B. Bowns, a basso with a truly wonderful voice, Mr. Navarro, who has no equal as a robust tenor; Mrs. C. H. Downs, coloratura contralto, and Miss Nelson, a remarkably sweet mezzo-soprano. The program is made up of old plantation melodies and selections from the popular grand operas. This concert is to be given next Wednesday April 22nd. Entire lower floor 50c, balcony 35c, gallery 25c.

Clay Clement

Clay Clement, who played the "New Dominion" in Brainerd some years ago, played in Winnipeg Monday and Tuesday evenings of this week and is billed for the Brainerd opera house Friday evening, April 24th. Mr. Clement presented "The New Dominion" on Monday evening at Winnipeg and "A Message From Waterloo" and "The Bells" on Tuesday evening. Those who saw Mr. Clement when he visited Brainerd before will anticipate a rare treat on his return engagement.

EAGLE HOSE COMPANY ELECTS

Southeast Brainerd Hose Company  
Held its Annual Meeting Friday  
Evening and Elected Officers

Eagle Hose Company, No. 4 held its annual election of officers at its home house in the Fourth ward Monday evening and elected the following officers: Foreman—Peter Peterson. 1st Asst.—Peter Christenson. 2nd. Asst.—Matt Hanson. Sec.—Julius Twist. Treas.—Andrew Peterson. Pipemen—Matt. Hanson, Frank Brant, Geo. Hanson, John Hanson. Plugmen—Julius Twist, Mike Satola. Torchman—John Thompson. Axman—Peter Christenson. Pickmen—Charles Fox, Henry Squires.

A UNIQUE RECORD

Not Another Like it in Our Broad Republic

To give positive home testimony in every locality is of itself unanswerable proof of merit; but when we add to this the continued endorsement from people who testified years ago no evidence can be stronger. A citizen gratefully acknowledges the good received from Doan's Kidney Pills, and when time has tested the cure we find the same hearty endorsement, with added enthusiasm and continued praise. Cases of this kind are plentiful in the work of Doan's Kidney Pills, and such a record is unique in the annals of medicine.

R. D. Ranson, engineer of 201 11th St. N., Brainerd, Minn., says: "What I said in recommending Doan's Kidney Pills in our local papers some six years ago was not only true, but I can state today that after further experience with this remedy, it is the best preparation of the kind that I ever tried. Before I got my first box at H. P. Dunn's drug store I had suffered for a good many years with kidney troubles. I had a great deal of pain in the back and loins and there was annoying irregularity in the action of the kidneys. Night brought me only restless sleep as I could not lie in one position without getting sore and lame. When stooping or lifting I suffered intense pain if I tried to straighten suddenly. Doan's Kidney Pills entirely cured me at that time, and when I suffered a similar attack some years later, I again used Doan's Kidney Pills with the same satisfactory results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doans—and take no other.

She Knew.

An applicant for the post of mistress in a country school was asked: "What is your position in regard to the whipping of children?" She replied: "My usual position is on a chair, with the child held firmly across my knees, face downward."

## "FAIR" CONTEST FOR CHILDREN

State Fair Offers Eighteen Prizes  
for Best Story of Attack on  
Ft. Ridgley

### WILL REPRODUCE THE EVENT

Historic Building and Indian At-  
tack will be Reproduced at  
the Fair

How many school children are there who are familiar with the history of their own state?

The management of the State Fair are interested in learning to what extent the children of Minnesota know of the struggles of the early settlers, and they propose a novel method of ascertaining.

The big spectacular feature of the 1908 fair will be known as "Fort Ridgley in 62." A reproduction of the old fort as it stood, at that time, will be constructed in the in-field of the half-mile track, and a portrayal of the attack by the Indians is to be reproduced.

One thousand people, including three hundred genuine Sioux Indians, will participate in the exhibition. It is intended to make the enactment as consistent as possible, and, as yet, the story upon which the action will be based is undecided. In order to secure a variety of versions of the various attacks by the Indians on Fort Ridgely, the state fair management intend offering eighteen prizes for the best story or description of the affair, written by a pupil in the public schools.

The story may be taken from any of the histories that are published on the Sioux War in Minnesota, or, they may be written from descriptions of the battles, as described by participants, many of whom are alive, and living in various parts of the state. The story must be written, however, in the writer's own style, and not quoted.

Any boy or girl living in Minnesota, and a pupil of the public schools, may contest for the prizes. A committee of prominent business men of St. Paul and Minneapolis will act as judges, and the spectacle will be based on the events as described in the winning story, which will be published in the official program of the fair, together with a portrait of the writer.

There will be eighteen prizes given as follows:

To the one whose story is selected as the winner, there will be given a cash prize of Ten Dollars (\$10.00), a season ticket to the fair, good for both Main Gate and Grandstand, and in addition a mammoth portrait of the winner will be shown in fireworks, on the first night of the fair.

To the one whose story is considered second best, there will be given a cash prize of Five Dollars (\$5.00), and a season ticket to the fair.

To the third Three Dollars (\$3.00), and a season ticket to the fair, and to the next five, a season ticket to the fair, and the next ten will each receive a single admission to the fair.

The contest will close at midnight June 1st. All stories must be written in ink, one side of the paper only, and must be confined to one thousand words. The age, name, and school attended should be plainly written at the top of the page. Stories to be addressed to C. N. Cosgrave, Secretary Minnesota State Fair, Hamline, Minn.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years it has been pronounced a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

### APPROVE PLAN

Many Expressions of Approbation are  
Heard of Plan to Curb Second  
Ward Streets

THE DISPATCH reporter this forenoon heard many words of commendation for the plan of the civic league to have the property in the second ward assessed this year for curbing. H. W. Linnemann spoke emphatically in favor of it. He believed it would be much easier for the property owners to pay for the curbing at one time and for the paving later than to pay for it all at once. He said that there could be no definite improvement of the streets as long as people could keep driving nearer and nearer to the sidewalks.

M. T. Dunn, while he would not perhaps compel the curbing at this time, believed that the lines and grades should be established and anyone who wished should be permitted to put in curb, whether for a single lot or for a block or more. He believed if it was once started the rest of the property holders would soon fall in line.

There is one thing in which the Second ward is behind every other in the city, said a resident of that ward this morning. In no other part of the city are so many ashes thrown in the street as in that ward. It should be stopped and every household caught violating the ordinance should be punished.

## ALDERMAN IS ELECTED

SPECIAL TO THE DISPATCH:

Elk River, Minn., April 14.—Senators Alderman and Gunderson were elected delegates to the republican national convention by the Sixth district republican convention here today. Mr. Means, of Wright county and Mr. Greno, of Staples, were elected as alternates. A. H. Terretin, of Benton county was nominated for presidential elector.

### JUNIOR MEMBERSHIP CONTEST

Junior Members of Y. M. C. A. are  
Contesting to See Who Can Se-  
cure the Most New Members

Yesterday about 4:15 15 of the juniors of the Y. M. C. A. met with the secretary to lay out a plan for a campaign for junior members. There are now 54 junior members in the Y. M. C. A. and they aim to raise it to 100. The junior gymnasium class has been divided into two teams as follows:

BLUES	WHITES
V. Bennett, Capt.	Geo. Ribbel, Capt.
F. Johnson	R. Elder
M. Elder	H. Fullerton
L. Langslow	R. Stickney
Geo. McLeod	W. Brown
C. Geminder	G. Day
E. White	W. Slipp
B. Burrell	E. Blake
R. Ahrens	A. McGinn

It is understood at the outset that the defeated side is to entertain the winning side at the close of the contest. Also that there will be a junior Y. M. C. A. camp some time this summer; plans for same are being laid now, and a spot will soon be selected. It is barely possible that there may be formed a junior base ball league as there are now four teams looming into sight.

### He Got What He Wanted

"Nine years ago it looked as if my time had come," says Mr. C. Farthing of Mill Creek, Ind. Ter. "I was so run down that life hung on a very slender thread. It was then my druggist recommended Electric Bitters. I bought a bottle and I got what I needed—strength. I had one foot in the grave, but Electric Bitters put it back on the turf again, and I've been well ever since." Sold under guarantee at H. P. Dunn's drug store. 50c. ttdw

### MUSIC AND DRAMA

#### Coming Attractions

April 22—Slayton's Jubilee Singers.

April 24—Clay Clement.

Soon—The Power that Governs.

Soon—"The Burgomaster."

#### Jubilee Singers Coming

The next attraction at the opera house will be the celebrated Slayton Tennesseans, jubilee singers. This is the well known organization that has been on the road for over twenty years and the managers announce that they have secured better talent for the present company than ever before. Wm. Hi Mason is the musical director this year and will be remembered as the director of the original Fisk Jubilees at the time Miss Maggie Cole was the sensation of the musical world on account of the wonderful soprano voice she possessed. Miss Io Maude Browne, the leading soprano of the company, is declared by Mr. Mason, and in fact by all who hear her, to be the finest colored singer of the present day. Other soloists of the company are Mr. Chas. B. Bowns, a basso with a truly wonderful voice, Mr. Navarro, who has no equal as a robust tenor; Mrs. C. H. Downs, coloratura contralto, and Miss Nelson, a remarkably sweet mezzo-soprano. The program is made up of old plantation melodies and selections from the popular grand operas. This concert is to be given next Wednesday April 22nd. Entire lower floor 50c, balcony 35c, gallery 25c.

### Clay Clement

Clay Clement, who played the "New Dominion" in Brainerd some years ago, played in Winnipeg Monday and Tuesday evenings of this week and is billed for the Brainerd opera house Friday evening, April 24th. Mr. Clement presented "The New Dominion" on Monday evening at Winnipeg and "A Message From Waterloo" and "The Bells" on Tuesday evening. Those who saw Mr. Clement when he visited Brainerd before will anticipate a rare treat on his return engagement.

### EAGLE HOSE COMPANY ELECTS

Southeast Brainerd Hose Company  
Held its Annual Meeting Friday  
Evening and Elected Officers

Eagle Hose Company, No. 4 held its annual election of officers at its hose house in the Fourth ward Monday evening and elected the following officers: Foreman—Peter Peterson. 1st Asst.—Peter Christenson. 2nd Asst.—Matt Hanson. Sec.—Julius Twist. Treas.—Andrew Peterson. Pipemen—Matt. Hanson, Frank Brant, Geo. Hanson, John Hanson. Plugmen—Julius Twist, Mike Satula. Torchman—John Thompson. Axman—Peter Christenson. Pickmen—Charles Fox, Henry Squires.

Copyright, 1908  
B. Kuppenheimer & Co.

A REHEARSAL of the many points in favor of your wearing Kuppenheimer Clothes would lead back beyond their fine finishing—though their tailoring is the finest;

Beyond the cutting and fitting—though they are made by the most skillful tailors;

Beyond the designing—though the designs are the accepted style-models of the best metropolitan tailors;

Back to the foundation—the fabric.

We know good fabrics—and Kuppenheimer garments are made of no other kind.

But besides their fine quality, there is a superior exclusiveness about them which, though not reckoned in the cost, adds still more to their full value.

If you don't know these fine clothes, come in and we'll gladly make you acquainted.

We also have an exquisite line of Easter Neckwear.

### A UNIQUE RECORD

Not Another Like it in Our Broad Republic

To give positive home testimony in every locality is of itself unanswerable proof of merit; but when we add to this the continued endorsement from people who testified years ago no evidence can be stronger. A citizen gratefully acknowledges the good received from Doan's Kidney Pills, and when time has tested the cure we find the same hearty endorsement, with added enthusiasm and continued praise. Cases of this kind are plentiful in the work of Doan's Kidney Pills, and such a record is unique in the annals of medicine.

R. D. Ranson, engineer of 201 11th St. N., Brainerd, Minn., says: "What I said in recommending Doan's Kidney Pills in our local papers some six years ago was not only true, but I can state today that after further experience with this remedy, it is the best preparation of the kind that I ever tried. Before I got my first box at H. P. Dunn's drug store I had suffered for a good many years with kidney troubles. I had a great deal of pain in the back and loins and there was annoying irregularity in the action of the kidneys. Night brought me only restless sleep as I could not lie in one position without getting sore and lame. When stooping or lifting I suffered intense pain if I tried to straighten suddenly. Doan's Kidney Pills entirely cured me at that time, and when I suffered a similar attack some years later, I again used Doan's Kidney Pills with the same satisfactory results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doans—and take no other.

### She Knew.

An applicant for the post of mistress in a country school was asked: "What is your position in regard to the whipping of children?" She replied: "My usual position is on a chair, with the child held firmly across my knees, face downward."

DR. A. W. CHASE'S CATARRH POWDER 25c.  
Is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. No harmful drugs. 25c. blower free; all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

H. P. DUNN, Druggist

## FLEET AT SAN DIEGO

Sixteen Battleships Arrive at the California Port.

### NOTABLE MARINE SPECTACLE

Most Magnificent Display of Sea Power Ever Witnessed on the Pacific Coast—Warships Receive a Warm Welcome.

San Diego, Cal., April 15.—The American battleship fleet has arrived here. Sapphire waters, reflecting the deep blue of a cloudless Southern sky, tropical islands jutting boldly out of the ocean in the path of the Western horizon, a mile of sandy beach crowded with enthusiastic patriots proud to welcome the navy to California and the green lawns and flowering gardens of Coronado, formed the setting for the most notable marine spectacle the West coast of the United States has ever known. In four regularly-intervaled columns, with flag ships leading abreast and pointing the way to the first home anchorage the fleet has found in its four months of cruising around the southernmost end of the Western hemisphere, the sixteen ships swept into the sheltered cove of the sea behind the towering headlands of Point Loma and halted for four days of merrymaking for men and officers. Governor James N. Gillette was here officially to welcome the fleet and called upon Rear Admiral Thomas. Local committees also went to the Connecticut to tell Admiral Thomas and through him all the men of the fleet how glad the people of California are to see such a splendid representation of the American navy as the battleship fleet constitutes. Admirals Thomas, Sperry and Emery and the commanding officers and members of the various staffs were entertained at an elaborate but informal dinner at the Hotel Del Coronado.

The beauty of the day's spectacle, when, with flashing signals and wonderfully executed maneuvers the ships were brought to anchor in the lazy rolling Pacific waters, was rivalled at night, when for three hours every vessel was outlined in fire. Thousands of incandescent bulbs were strung along decklines, up masts, far out on the signal yardarms, up and down the huge funnels and down to the water's edge at stem and stern.

Glow of Lights Flooded the Sea.

In fairy-like form the ships stood out against the night and in letter six feet high the name of each vessel

was spelled across its forward bridge. The glow of the lights flooded the sea for thousands of yards away, the gleaming outlines shimmering in phantom-like reflections.

During half an hour of the period of illumination a searchlight display was made, adding infinitely to the wonderful effects.

The thousands who journeyed from San Diego to the beaches of Coronado to witness the arrival of the fleet remained to view the beauties offered by the night spectacle.

The fleet let go its anchors—all splashing in the water with precision—just thirteen minutes before the anchoring hour arrived. For two hours the ships had been in sight and their coming had been watched with wonder by the waiting throngs. So engrossed were they in the beauty of the scene that they forgot to cheer. Never before have armor-clads of the Connecticut type, displacing more than 16,000 tons of water in their occupancy of the sea, been seen along the Pacific coast, and the occasion of their first visit is to be made a memorable event whenever they touch a port.

The splendid condition of the ships was manifested in every way. Outwardly they were the same sparkling, white and buff units of a powerful aggregation of fighting force that pointed their way out of Hampton Roads on a home coast 3,000 miles away, with the president showing the way on his cruiser-yacht, the Mayflower. Internally the ships were in better condition than when they started.

### PRAIRIE FIRES RAGING.

Destroy Houses, Barns, Hay and Stock in South Dakota.

Hetland, S. D., April 15.—A prairie fire near Broadland has burned over half a county and is still burning. Five hundred men are fighting the fire, which has destroyed six houses and their contents, a number of barns and other buildings, thousands of tons of hay and a number of horses and cattle.

Two extensive prairie fires are reported to be burning in Sully county, north of Pierre. A gale has been blowing, making it impossible to head the fires and a large area has been burned over. While it is feared that buildings and stock have been lost, it is impossible to get definite information. One of the fires started north of Okobojo, in the western part of the county, and the other north of Harrold, in the eastern part.

Lightning Hits an Oil Tank.

Beaumont, Tex., April 15.—Six inches of rain fell here and all streets in the city were under water for several hours and street car service and other traffic was stopped. Lightning struck an oil tank at the plant of the Security oil refinery containing 45,000 barrels of oil in process of refining. The total loss to oil is about \$125,000.

## CHICAGO DEFEATS DETROIT

Baseball Season in the Big League Opens.

Chicago, April 15.—Chicago defeated Detroit in the opening game of the American league season by the one-sided score of 15 to 8. The visitors seemed in poor condition and after the first five innings the Chicago pitchers took things easy. A crowd that overflowed the field and made ground rules necessary saw the contest.

Other games in the American league resulted as follows:

At Boston, 3; Washington, 1.  
At Cleveland, 1; St. Louis, 2—ten innings.

At New York, 1; Philadelphia, 0—twelve innings.

### National League.

Cincinnati, April 15.—The opening game of the National league season was played here before the largest crowd that ever witnessed a baseball contest in this city. Cincinnati secured a lead of five runs in the first inning through errors and timely hitting, but was unable to score thereafter. Chicago gradually overcame the lead and won out in the ninth, the final score being 6 to 5 in the visitors' favor.

Other National league games resulted as follows:

At Brooklyn, 3; Boston, 9.  
At Philadelphia, 1; New York, 3.

### MORE BODIES FOUND.

At Least Six Persons Perished in the Fire at Chelsea, Mass.

Boston, April 15.—The remains of two persons, a man and a woman, have been found in the ruins of Sunday's fire at Chelsea. The bodies of three unknown persons had been recovered previously. It was reported that the remains of a sixth victim had been found, but the police say that the rumor is incorrect. The bodies found were thought to be those of Mrs. John B. Hake and Willard C. Sanborn, a carpenter. The three bodies found previously have not been identified.

A human skull later was found in the cellar of 62 Chester avenue. The discovery places the death list at six.

### Admiral Evans Improving.

Paso Robles, Cal., April 15.—Rear Admiral Robley D. Evans was taken out and wheeled to the bathroom. It was the first time that he had left his room since last Thursday. After being given a sulphur bath and treatment he was taken back to his room. There was a marked improvement in his appearance. The admiral remarked that for the first time since his arrival here he was feeling that he was gaining strength and getting well.

## ORCHARD ON A ROCK PILE.

Remarkable Experiment in California Made by a Dredge Operator.

Growing an orchard upon a rock pile would seem like horticulture in topsy turvy land, but this is exactly what James H. Leggett, a large dredge operator and former orchardist, is doing at Oroville, Cal. He has leveled a number of acres of rock pile upon land which he has dredged and is now planting this ground to figs, oranges and grapes. Not only does Leggett contend that the land is as well adapted to raising fruit as before it was dredged, but he goes further and says that it is better. For the past few years he has been experimenting and is in a position to talk from actual observation of trees planted among rocks. The soil is all there, says Leggett, the only difference being that it has been transposed, and the rocks which formerly were below are now on top.

In the land now being planted a rich loam and fertilizer is thrown above the roots and the whole covered with a foot of clean washed gravel and rocks which have not even a suspicion of soil in them. Leggett states that he does not want any soil surfacing. Soil would merely allow weeds to grow, which would have to be cultivated to get rid of. The foot of clean rock accomplishes everything that cultivation would do. It prevents weeds from growing, conserves the water and, moreover, conserves the heat. The land has been turned over and stirred up to bedrock. It has been cultivated as no plow could ever cultivate it.

The fruit from the trees planted as experiments on the rock piles is fully ten weeks ahead of the old orchards which existed before the land was dredged. This is on account of the fact that the rock surface retains the heat. Leggett states that his experiments have demonstrated beyond possible doubt that all the land which was formerly devoted to orchards in and around Oroville and which has been torn up by the dredgers can be reclaimed for horticultural purposes.

### MORAL PAIN REMEDY.

French Society's Method to Cure Heartache by Scientific Toothache.

One pain drives out another—I dare say you are familiar with that old saying. On the idea contained in this proverb a man of genius has founded a society which has already attracted a number of members.

The name of the organization is the Society For the Suppression of Moral Pain by Physical Pain. And the worthy founder explains its aims and purposes in a circular which has been sent broadcast, writes the Paris correspondent of the New York American. For instance, a man is stricken with some great grief. Perhaps he is brutally abandoned by a dearly loved wife, and life becomes an intolerable burden. Now, instead of dreaming of suicide, he merely telephones to the society. Forthwith a dentist is sent to his house.

That able man approaches the desolate husband and gives him an injection which causes immediately a raging toothache. The pain lasts for three days. The deserted husband groans and roars, but during the three days at all events he does not think of his broken heart. This society, it seems to me, has a prosperous future before it.

### MAY STUMP IN AN AIRSHIP.

Milwaukee's "Boy Mayor" Buys One For Gubernatorial Campaign.

Sherbie Becker, the "boy mayor of Milwaukee," announced in Chicago the other night that he had purchased a balloon in St. Louis and that if he runs for governor of Wisconsin next fall, as he may, he will use the balloon for stump speaking.

"There are many counties in the northern part of Wisconsin," said the mayor, "that are difficult of access to steam cars or automobiles. If I make the canvass I hope to visit seventy-six counties of the state in the balloon, speaking from the basket of the airship."

"The real reason for my purchase of the balloon is the condition of the roads in northern Wisconsin. To put it mildly, they are execrable."

The mayor also said incidentally that he would enter his airship in the international balloon tournament in Chicago in July.

### PLAN TO BUILD NEW ALPS.

Miniature Switzerland to Be Constructed of Cement.

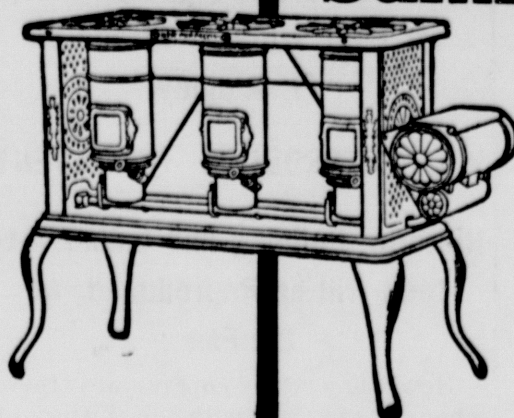

A young Alsatian engineer, M. Welsa, suggests that an artificial range of mountains should be built some fifteen miles north and northeast of Paris, in France.

According to the scheme, which he explained, he would create a sort of miniature Switzerland within easy reach of the French capital by taking a strip of territory a mile wide by five miles in length and building an artificial range of mountains of from 3,000 to 5,000 feet in height.

It would, he asserts, be quite possible to build these mountains from huge blocks of cement, which would be cast on the spot. Landscape gardeners would arrange valleys and precipices. Streams would be artificially diverted and caused to fall in cascades. Cog-wheel railways would carry the visitors up to picturesque looking villages.

He estimates the scheme would cost \$25,000,000, providing labor for 20,000 workmen for ten years, and that it would be of national utility, placing Swiss scenery almost at the gates of Paris. Moreover, it would form a sort of summer pleasure resort, in which thousands of people would build country houses to enjoy the air of the artificial mountains, while being able to go into the city to business every day.

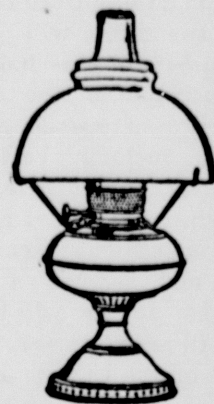

## Have You a Summer Stove?

heating the room. If you examine the

## NEW PERFECTION Wick Blue Flame Oil Cook-Stove

you will see why this is so. The heat from the chimney of the "New Perfection" is concentrated under the kettle and not dissipated through the room by radiation. Thus it does the work of the coal range without its discomfort. Ask your dealer about this stove—if not with him, write our nearest agency.

## The Rayo Lamp

is a very handsome piece of housefurnishing and gives a clear, powerful light more agreeable than gas or electricity. Safe everywhere and always. Made of brass finely nickel plated—just the thing for the living-room. If not with your dealer, write our nearest agency.

Duluth Boy Electrocuted.

Duluth, April 15.—Robert Johnson, seventeen years old, a son of Mr. and Mrs. August Johnson of West Duluth, was fatally hurt by a live wire. He and a companion climbed a tower of the Great Northern Power company's transmission line and Johnson, either through ignorance or carelessness, grasped one of the big wires. He was terribly burned and at the hospital to which he was taken it is reported that he is fatally injured.

### MARKET QUOTATIONS.

Minneapolis Wheat.

Minneapolis, April 14.—Wheat—May, 98½¢; July, 98½¢. On track—No. 1 hard, \$1.02½; No. 1 Northern, \$1.00½; No. 2 Northern, 98½¢ @ 98½¢; No. 3 Northern, 90¢ @ 96¢.

St. Paul Union Stock Yards.

St. Paul, April 14.—Cattle—Good to choice steers, \$6.00 @ 6.75; fair to good, \$5.00 @ 5.95; good to choice cows and heifers, \$4.00 @ 5.00; veals, \$3.75 @ 5.00. Hogs—\$5.60 @ 5.75. Sheep—Wethers, \$6.00 @ 6.35; good to choice lambs, \$6.75 @ 7.25.

If you think of going to Denver to the Democratic National Convention make no arrangements until you have consulted The Twin City Denver Excursion League.

We have arrangements with the Northwestern Line and Union Pacific Ry., to run a special train of sleepers from the Twin Cities to Denver, that will arrive there two days before the opening of the convention.

The fare will be the same as the prevailing rates made by the railroads for that occasion but we take care of you on the way and in Denver.

You will not be at the mercy of the hotel keepers or be herded in trains like cattle. We guarantee every one who goes with us, ease and comfort on the way, relieved of all care, seeking accommodations in Denver and about half of what your expense would be if you went alone.

Our party will be a loyal Minnesota crowd who will all know each other by the time we reach Denver and will have the best time while there and show the rest of the country that good old Minnesota is up to the minute. Make up your mind to go with us:

## FLEET AT SAN DIEGO

Sixteen Battleships Arrive at the California Port.

### NOTABLE MARINE SPECTACLE

Most Magnificent Display of Sea Power Ever Witnessed on the Pacific Coast—Warships Receive a Warm Welcome.

San Diego, Cal., April 15.—The American battleship fleet has arrived here. Sapphire waters, reflecting the deep blue of a cloudless Southern sky, tropical islands jutting boldly out of the ocean in the path of the Western horizon, a mile of sandy beach crowded with enthusiastic patriots proud to welcome the navy to California and the green lawns and flowering gardens of Coronado, formed the setting for the most notable marine spectacle the West coast of the United States has ever known. In four regularly-intervailed columns, with flagships leading abreast and pointing the way to the first home anchorage the fleet has found in its four months of cruising around the southernmost end of the Western hemisphere, the sixteen ships swept into the sheltered cove of the sea behind the towering headlands of Point Loma and halted for four days of merrymaking for men and officers. Governor James N. Gillette was here officially to welcome the fleet and called upon Rear Admiral Thomas. Local committees also went to the Connecticut to tell Admiral Thomas and through him all the men of the fleet how glad the people of California are to see such a splendid representation of the American navy as the battleship fleet constitutes. Admirals Thomas, Sperry and Emery and the commanding officers and members of the various staffs were entertained at an elaborate but informal dinner at the Hotel Del Coronado.

The beauty of the day's spectacle, when, with flashing signals and wonderfully executed maneuvers the ships were brought to anchor in the lazy rolling Pacific waters, was rivalled at night, when for three hours every vessel was outlined in fire. Thousands of incandescent bulbs were strung along declines, up masts, far out on the signal yardarms, up and down the huge funnels and down to the water's edge at stem and stern.

Glow of Lights Flooded the Sea. In fairy-like form the ships stood out against the night and in letters six feet high the name of each vessel was spelled across its forward bridge. The glow of the lights flooded the sea for thousands of yards away, the gleaming outlines shimmering in phantom-like reflections.

During half an hour of the period of illumination a searchlight display was made, adding infinitely to the wonderful effects.

The thousands who journeyed from San Diego to the beaches of Coronado to witness the arrival of the fleet remained to view the beauties offered by the night spectacle.

The fleet let go its anchors—all splashing in the water with precision—just thirteen minutes before the anchoring hour arrived. For two hours the ships had been in sight and their coming had been watched with wonder by the waiting throngs. So engrossed were they in the beauty of the scene that they forgot to cheer. Never before have armor-clads of the Connecticut type, displacing more than 16,000 tons of water in their occupancy of the sea, been seen along the Pacific coast, and the occasion of their first visit is to be made a memorable event whenever they touch a port.

The splendid condition of the ships was manifested in every way. Outwardly they were the same sparkling, white and buff units of a powerful aggregation of fighting force that pointed their way out of Hampton Roads on a home coast 3,000 miles away, with the president showing the way on his cruiser-yacht, the Mayflower. Internally the ships were in better condition than when they started.

**PRAIRIE FIRES RAGING.** Destroy Houses, Barns, Hay and Stock in South Dakota.

Hetland, S. D., April 15.—A prairie fire near Broadland has burned over half a county and is still burning. Five hundred men are fighting the fire, which has destroyed six houses and other buildings, thousands of tons of hay and a number of horses and cattle.

Two extensive prairie fires are reported to be burning in Sully county, north of Pierre. A gale has been blowing, making it impossible to head the fires and a large area has been burned over. While it is feared that buildings and stock have been lost, it is impossible to get definite information. One of the fires started north of Okobojo, in the western part of the county, and the other north of Harrold, in the eastern part.

**Lightning Hits an Oil Tank.** Beaumont, Tex., April 15.—Six inches of rain fell here and all streets in the city were under water for several hours and street car service and other traffic was stopped. Lightning struck an oil tank at the plant of the Security oil refinery containing 45,000 barrels of oil in process of refining. The total loss to oil is about \$125,000.

**CHICAGO DEFEATS DETROIT** Baseball Season in the Big League Opens.

Chicago, April 15.—Chicago defeated Detroit in the opening game of the American league season by the one-sided score of 15 to 8. The visitors seemed in poor condition and after the first five innings the Chicago pitchers took things easy. A crowd that overflowed the field and made ground rules necessary saw the contest.

Other games in the American league resulted as follows: At Boston, 3; Washington, 1. At Cleveland, 1; St. Louis, 2—ten innings. At New York, 1; Philadelphia, 0—twelve innings.

**National League.** Cincinnati, April 15.—The opening game of the National league season was played here before the largest crowd that ever witnessed a baseball contest in this city. Cincinnati secured a lead of five runs in the first inning through errors and timely hitting, but was unable to score thereafter. Chicago gradually overcame the lead and won out in the ninth, the final score being 6 to 5 in the visitors' favor.

Other National league games resulted as follows: At Brooklyn, 3; Boston, 9. At Philadelphia, 1; New York, 3.

**ORCHARD ON A ROCK PILE.** Remarkable Experiment in California Made by a Dredge Operator.

Growing an orchard upon a rock pile would seem like horticulture in topsy turvy land, but this is exactly what James H. Leggett, a large dredge operator and former orchardist, is doing at Oroville, Cal. He has leveled a number of acres of rock pile upon land which he has dredged and is now planting this ground to figs, oranges and grapes. Not only does Leggett contend that the land is as well adapted to raising fruit as before it was dredged, but he goes further and says that it is better. For the past few years he has been experimenting and is in a position to talk from actual observation of trees planted among rocks. The soil is all there, says Leggett, the only difference being that it has been transposed, and the rocks which formerly were below are now on top.

In the land now being planted a rich loam and fertilizer is thrown above the roots and the whole covered with a foot of clean washed gravel and rocks which have not even a suspicion of soil in them. Leggett states that he does not want any soil surfacing. Soil would merely allow weeds to grow, which would have to be cultivated to get rid of. The foot of clean rock accomplishes everything that cultivation would do. It prevents weeds from growing, conserves the water and, moreover, conserves the heat. The land has been turned over and stirred up to bedrock. It has been cultivated as no plow could ever cultivate it.

The fruit from the trees planted as experiments on the rock piles is fully ten weeks ahead of the old orchards which existed before the land was dredged. This is on account of the fact that the rock surface retains the heat. Leggett states that his experiments have demonstrated beyond possible doubt that all the land which was formerly devoted to orchards in and around Oroville and which has been torn up by the dredgers can be reclaimed for horticultural purposes.

**MORAL PAIN REMEDY.** French Society's Method to Cure Heartache by Scientific Toothache.

One pain drives out another—I dare say you are familiar with that old saying. On the idea contained in this proverb a man of genius has founded a society which has already attracted a number of members.

The name of the organization is the Society For the Suppression of Moral Pain by Physical Pain. And the worthy founder explains its aims and purposes in a circular which has been sent broadcast, writes the Paris correspondent of the New York American. For instance, a man is stricken with some great grief. Perhaps he is brutally abandoned by a dearly loved wife, and life becomes an intolerable burden. Now, instead of dreaming of suicide, he merely telephones to the society. Forthwith a dentist is sent to his house.

That able man approaches the desolate husband and gives him an injection which causes immediately a raging toothache. The pain lasts for three days. The deserted husband groans and roars, but during the three days at all events he does not think of his broken heart. This society, it seems to me, has a prosperous future before it.

**MAY STUMP IN AN AIRSHIP.** Milwaukee's "Boy Mayor" Buys One For Gubernatorial Campaign.

Sherbie Becker, the "boy mayor of Milwaukee," announced in Chicago the other night that he had purchased a balloon in St. Louis and that if he runs for governor of Wisconsin next fall, as he may, he will use the balloon for stump speaking.

"There are many counties in the northern part of Wisconsin," said the mayor, "that are difficult of access to steam cars or automobiles. If I make the canvass I hope to visit seventy-six counties of the state in the balloon, speaking from the basket of the airship."

"The real reason for my purchase of the balloon is the condition of the roads in northern Wisconsin. To put it mildly, they are execrable."

The mayor also said incidentally that he would enter his airship in the international balloon tournament in Chicago in July.

**PLAN TO BUILD NEW ALPS.** Miniature Switzerland to Be Constructed of Cement.

A young Alsatian engineer, M. Weiss, suggests that an artificial range of mountains should be built some fifteen miles north and northeast of Paris, in France.

According to the scheme, which he explained, he would create a sort of miniature Switzerland within easy reach of the French capital by taking a strip of territory a mile wide by five miles in length and building an artificial range of mountains of from 3,000 to 5,000 feet in height.

It would, he asserts, be quite possible to build these mountains from huge blocks of cement, which would be cast on the spot. Landscape gardeners would arrange valleys and precipices. Streams would be artificially diverted and caused to fall in cascades. Cog-wheel railways would carry the visitors up to picturesque looking villages.

He estimates the scheme would cost \$25,000,000, providing labor for 20,000 workmen for ten years, and that it would be of national utility, placing Swiss scenery almost at the gates of Paris. Moreover, it would form a sort of summer pleasure resort, in which thousands of people would build country houses to enjoy the air of the artificial mountains, while being able to go into the city to business every day.

WANTED—Girl at the Windsor Hotel. 242tf

WANTED—Girl at once. Mrs. D. M. Clark.

WANTED—Girl for general housework. Mrs. L. P. White, 321 7th St. N. tf

FOR RENT—Six room unfurnished flat in the Pearce block. Also two furnished rooms. 255tf

LOST—Along the St. Paul track Saturday night, a bunch of keys. Finder will return to Dispatch office for reward. 265t3p

FOR SALE CHEAP—Story and a half house and two lots. Would take team of horses as part payment. Address 723 Second avenue N. E. 263t6p

\$175 to \$750 for houses and lots near the Lowell school. \$800 for good five room brick veneered house and barn and 100 foot lot on Pine St. S. E., a good part of town to live in. \$400 for six room house and small lot on Fifth St., S., one block from site of new Postoffice. Hiram Gilson, Miracle Block. 266t3

## CHICAGO DEFEATS DETROIT

Baseball Season in the Big League Opens.

Chicago, April 15.—Chicago defeated Detroit in the opening game of the American league season by the one-sided score of 15 to 8. The visitors seemed in poor condition and after the first five innings the Chicago pitchers took things easy. A crowd that overflowed the field and made ground rules necessary saw the contest.

Other games in the American league resulted as follows: At Boston, 3; Washington, 1. At Cleveland, 1; St. Louis, 2—ten innings. At New York, 1; Philadelphia, 0—twelve innings.

**National League.** Cincinnati, April 15.—The opening game of the National league season was played here before the largest crowd that ever witnessed a baseball contest in this city. Cincinnati secured a lead of five runs in the first inning through errors and timely hitting, but was unable to score thereafter. Chicago gradually overcame the lead and won out in the ninth, the final score being 6 to 5 in the visitors' favor.

Other National league games resulted as follows: At Brooklyn, 3; Boston, 9. At Philadelphia, 1; New York, 3.

**MORE BODIES FOUND.** At Least Six Persons Perished in the Fire at Chelsea, Mass.

Boston, April 15.—The remains of two persons, a man and a woman, have been found in the ruins of Sunday's fire at Chelsea. The bodies of three unknown persons had been recovered previously. It was reported that the remains of a sixth victim had been found, but the police say that the rumor is incorrect. The bodies found were thought to be those of Mrs. John B. Hake and Willard C. Sanborn, a carpenter. The three bodies found previously have not been identified.

A human skull later was found in the cellar of 62 Chester avenue. The discovery places the death list at six.

**Admiral Evans Improving.** Paso Robles, Cal., April 15.—Rear Admiral Robley D. Evans was taken out and wheeled to the bathroom. It was the first time that he had left his room since last Thursday. After being given a sulphur bath and treatment he was taken back to his room. There was a marked improvement in his appearance. The admiral remarked that for the first time since his arrival here he was feeling that he was gaining strength and getting well.

**Lightning Hits an Oil Tank.** Beaumont, Tex., April 15.—Six inches of rain fell here and all streets in the city were under water for several hours and street car service and other traffic was stopped. Lightning struck an oil tank at the plant of the Security oil refinery containing 45,000 barrels of oil in process of refining. The total loss to oil is about \$125,000.
